New Jersey Peach Council

New Varieties of Peaches Offered to New Jersey Growers for Commercial Tests

FALL 1934

N. J. No. 87

The distribution of these new varieties is conducted under the direction of the New Jersey Peach Council, Inc., in cooperation with the New Jersey Agricultural Experiment Station

The Horticultural News, official organ of the New Jersey State Horticultural Society, contains timely information regarding new varieties, as well as other subjects of direct interest to fruit and vegetable growers. If you do not receive this valuable horticultural publication, write to the secretary of the New Jersey State Horticultural Society, Arthur J. Farley, New Brunswick, New Jersey, and ask for a sample copy.

Six New Jersey Agricultural Experiment Station Peach Seedlings Offered to New Jersey Growers

The New Jersey Peach Council, Inc., has propagated a number of trees of several of the more promising peach seedlings originated by the New Jersey Agricultural Experiment Station, and now offers them to New Jersey growers for commercial test.

DESCRIPTION OF VARIETIES

Yellow-fleshed Freestone Series

The following 5 varieties will provide a continuous succession of large, firm, high-colored, yellow-fleshed, high quality freestone peaches from Golden Jubilee to Elberta. An opportunity for New Jersey growers at this time.

N. J. No. 70

A medium to large, firm, yellow-fleshed, freestone of high quality which begins to ripen almost as early as Golden Jubilee and hangs to the tree longer. Colors well and is a better peach for shipping than Golden Jubilee. Should be planted upon good peach soil.

N. J. No. 71

A large, round, very firm, deep red all over, yellow-fleshed, freestone of high quality ripening after Golden Jubilee. Set a crop in one orchard in 1934.

N. J. No. 73

A companion variety to N. J. No. 71. Large, round, yellow-fleshed, firm, high quality freestone. May average a little larger than N. J. No. 71, not quite so dark a red, and is sometimes more prominently striped. Produced some fruit in one orchard in 1934.

N. J. No. 87

A large, oval, firm, yellow-fleshed, and striped freestone of high quality which ripens after N. J. No. 71 and 73. Larger than Eclipse, of same reason and a promising variety to replace it. Produced a few fruits in one orchard in 1934.

N. J. No. 94

A large, oval, firm, yellow-fleshed peach of good quality, ripening just after N. J. No. 87 and a few days before Belle. Should be planted instead of Belle.

White-fleshed Freestone

White Hale (U. S. Plant Patent No. 31)

A round, oval, large, firm, white-fleshed freestone ripening at the same season as J. H. Hale. Tree more vigorous and the flowers are fertile, unlike the sterile J. H. Hale which is one of its parents. A larger, more firm and highly colored peach than Belle of Georgia. All propagating rights are retained by the New Jersey Agricultural Experiment Station in accordance with the Federal Plant Patent Law.

Grades and Prices

Grade	25 to 100	100 to 250	250 to 500	500 to 1,000	Over 1,000
2½ to 3 feet.....	24 cents	22 cents	20 cents	18 cents	16 cents
3 to 4 feet	30 cents	28 cents	26 cents	24 cents	22 cents
4 to 5 feet	30 cents	28 cents	26 cents	24 cents	22 cents
Over 5 feet	30 cents	28 cents	26 cents	24 cents	22 cents

Less than 25 trees, 50 cents each, all trees to be of the 3 to 4 foot grade or larger.

These prices include truck delivery to some central point, such as Moorestown, Hammonton, Glassboro, Freehold, or Lebanon, if the number of trees ordered makes such delivery practical. Trees may also be secured at the Princeton Nurseries, near Kingston, if the order has been accepted by the Peach Council, Inc. Small shipments to distant points of the state, including all orders for less than 25 trees, will be sent by express collect.

EARLY FALL ORDERS RECEIVE PREFERENCE

These prices apply only to trees ordered and delivered on or before December 1, 1934. Orders for spring delivery will not be accepted until after all fall orders have been delivered and the prices may be higher. *All varieties of which there is a surplus on November 15, 1934 will be offered for sale outside of New Jersey.* PLACE YOUR ORDER NOW.

PLACING ORDERS

All applications for trees should be sent to the New Jersey Peach Council, Inc., Box 278, Princeton, New Jersey. Applications approved by the Peach Council will be turned over to the Princeton Nurseries with instructions to fill the order and make delivery as specified on the application blank. A deposit equal to 10 per cent of the total cost of the trees is required with each order and the balance before delivery. Orders will be filled in accordance with the date they are received. The grade specified in the order will be furnished unless the supply of trees of that grade is exhausted in which case another grade listed at the same price will be substituted.

APPLICATION BLANK
FOR TREES OF NEW JERSEY PEACH SEEDLINGS
Numbers 70, 71, 73, 87, 94 and White Hale
FALL 1934

Date....., 193

TO THE NEW JERSEY PEACH COUNCIL, INC.,
Box 278, Princeton, New Jersey:

I would like to place an order for the following peach trees:

- N. J. No. 70.....
